The Preschool Program Quality Assessment (PQA), Second Edition, is a rating instrument designed to evaluate the quality of early childhood programs and identify staff training needs. This new edition offers a completely revised format and scoring system for ease of use and greater accuracy. Developed by HighScope Educational Research Foundation, the Preschool PQA is appropriate for use in all center-based early childhood settings, including but not limited to those using the HighScope educational approach. The Preschool PQA is an all-in-one program evaluation system with the following features:

- Assesses key aspects of program quality, including adult-child interaction, learning environment, daily routine, curriculum planning and assessment, parent involvement and family services, staff qualifications and development, and program management
- Includes both classroom- and agency-level items for comprehensive evaluation
- May be administered by trained independent raters or as a self-assessment by program staff
- Provides specific, easily understood quality indicators with objective 5-point rating scales that define quality along a continuum
- Reflects research-based and field-tested “best practices” in early childhood education and care
- Can be aligned with the Head Start Program Performance Standards (see the Preschool PQA Administration Manual)
- Provides reliable, scientifically validated assessment proven in a wide range of early childhood programs and settings
- Can be used as a basis for program accreditation, reporting, monitoring, and training

Training results in the most effective use of the Preschool PQA. To arrange Preschool PQA training for staff members or independent raters who will be completing this instrument, please contact the Training Coordinator, HighScope Educational Research Foundation, 600 North River Street, Ypsilanti, MI 48198-2898; Phone: 734.485.2000, ext. 218, Fax: 734.485.4467, E-Mail: training@highscope.org. Or visit the HighScope Web site—highscope.org—for more information on training programs or to register online.
# PRESCHOOL PROGRAM QUALITY ASSESSMENT (PQA)

Date
Classroom Items (Form A)

I. LEARNING ENVIRONMENT
   A. Safe and healthy environment
   B. Defined interest areas
   C. Logically located interest areas
   D. Outdoor space, equipment, materials
   E. Organization and labeling of materials
   F. Varied and open-ended materials
   G. Plentiful materials
   H. Diversity-related materials
   I. Displays of child-initiated work

II. DAILY ROUTINE
   A. Consistent daily routine
   B. Parts of the day
   C. Appropriate time for each part of day
   D. Time for child planning
   E. Time for child-initiated activities
   F. Time for child recall
   G. Small-group time
   H. Large-group time
   I. Choices during transition times
   J. Cleanup time with reasonable choices
   K. Snack or meal time
   L. Outside time

III. ADULT-CHILD INTERACTION
   A. Meeting basic physical needs
   B. Handling separation from home
   C. Warm and caring atmosphere
   D. Support for child communication
   E. Support for non-English speakers
   F. Adults as partners in play
   G. Encouragement of child initiatives
   H. Support for child learning at group times
   I. Opportunities for child exploration
   J. Acknowledgment of child efforts
   K. Encouragement for peer interactions
   L. Independent problem solving

IV. CURRICULUM PLANNING AND ASSESSMENT
   A. Curriculum model
   B. Team teaching
   C. Comprehensive child records
   D. Anecdotal note taking by staff
   E. Use of child observation measure

Agency Items (Form B)

V. PARENT INVOLVEMENT AND FAMILY SERVICES
   A. Opportunities for involvement
   B. Parents on policy-making committees
   C. Parent participation in child activities
   D. Sharing of curriculum information
   E. Staff-parent informal interactions
   F. Extending learning at home
   G. Formal meetings with parents
   H. Diagnostic/special education services
   I. Service referrals as needed
   J. Transition to kindergarten

VI. STAFF QUALIFICATIONS AND STAFF DEVELOPMENT
   A. Program director background
   B. Instructional staff background
   C. Support staff orientation and supervision
   D. Ongoing professional development
   E. Inservice training content and methods
   F. Observation and feedback
   G. Professional organization affiliation

VII. PROGRAM MANAGEMENT
   A. Program licensed
   B. Continuity in instructional staff
   C. Program assessment
   D. Recruitment and enrollment plan
   E. Operating policies and procedures
   F. Accessibility for those with disabilities
   G. Adequacy of program funding

SCORING INSTRUCTIONS

Step 1
Observe and/or interview as appropriate. (Sections I–III are designed to be completed mainly through observation, while Section IV is interview-based.) Record supporting evidence in the spaces provided in each row of boxes.

What you see, hear, and write down provides the evidence for the level of quality you select in step 3. Much of your evidence will come from direct observation, but sometimes you will need to ask program staff (for example, teachers, early childhood specialists, or directors) for additional information to supplement what you observe. Use the standard questions, which appear above the indicators, to elicit information from staff as needed. Supporting evidence for the indicator level you choose includes any of the following, as needed, for each item:

• Anecdotes: brief notes on what children and/or staff actually do and/or communicate
• Quotes: what children and/or staff actually say
• Materials lists
• Diagrams of the room, space, area, and/or outdoor play yard; sketches and notations
• Sequences of daily events and routines
• Answers to questions (see specific wording of questions under relevant items)

Step 2
Read each row of indicators. Check one box per row.

Once you have gathered supporting evidence for an item, read the rows of indicators that follow it. Based on the evidence you have gathered in Step 1, place a checkmark (✓) in one and only one box (1, 3, or 5) of each row of indicators. Try to complete every row for every item. Ask teachers and/or program staff for additional information to supplement what you observe as needed. If a row of boxes does not apply (for example, if it is a half-day program without naptime), make a note to that effect next to the row and do not check any boxes in that row.

Step 3
Determine the quality level. Circle the corresponding level at the top of the form: 1, 2, 3, 4, or 5.

Determine the quality level for the item using the following criteria:

For items with three or more rows of boxes
Level 1: Half or more of the level 1 boxes are checked (regardless of the level 3 or level 5 boxes that may be checked).
Level 2: Fewer than half of the level 1 boxes are checked, and some of the level 3 and/or level 5 boxes are checked.
Level 3: Half or more of the level 3 boxes are checked, and no level 1 boxes are checked.
Level 4: Fewer than half of the level 3 boxes are checked, and the remaining boxes are checked at level 5.
Level 5: All the level 5 boxes are checked, and no level 1 boxes or level 3 boxes are checked.

For items with two rows of boxes
Level 1: Both level 1 boxes are checked.
Level 2: One level 1 box and either one level 3 box or one level 5 box are checked.
Level 3: Both level 3 boxes are checked.
Level 4: One level 3 box and one level 5 box are checked.
Level 5: Both level 5 boxes are checked.

If a row of boxes is “not applicable” or cannot be observed or determined by interview, compute the quality level based on the number of rows that are completed for that item. If and only if no rows are completed in the item, check “Not observed or reported” and enter “NR” on the Summary Sheet.

For additional instructions on administering the Preschool PQA, see the Preschool PQA Administration Manual.
### I. LEARNING ENVIRONMENT
I–A. The classroom provides a safe and healthy environment for children.

#### Standard Question
1. Do you have a first-aid kit? Where is it located?

<table>
<thead>
<tr>
<th>Level 1 Indicators</th>

<tbody>
<tr>
<td>Classroom space is crowded, not permitting children and adults to move, play, and work freely whether alone or with others.</td>
<td>Some classroom space permits children and adults to move, play, and work freely, whether alone or with others.</td>
<td>Classroom space is ample (at least 50 square feet per child) and permits children and adults to move, play, and work freely, whether alone or with others. [Divide the total area by the maximum allowable enrollment of children.]</td>
<td></td>
</tr>
<tr>
<td>There are safety and health hazards (e.g., broken toys, unmopped spills, unsanitary toilet facilities, uncovered electrical outlets).</td>
<td>There are minor safety and health problems (e.g., dirty toys or floors, wobbly furniture).</td>
<td>The room is free of health and safety hazards.</td>
<td></td>
</tr>
<tr>
<td>The classroom lacks adequate ventilation, lighting, or temperature control.</td>
<td>Ventilation, lighting, or temperature control is sometimes adequate.</td>
<td>Ventilation and lighting are adequate; a comfortable temperature is consistently maintained throughout the day (e.g., individual thermostat and/or windows and doors that can be opened to regulate the temperature in the room; window coverings that can be adjusted for light and air.</td>
<td></td>
</tr>
<tr>
<td>The classroom is used to store nonprogram materials (e.g., broken or unused equipment).</td>
<td>Some nonprogram materials are stored in parts of the classroom.</td>
<td>Nonprogram materials are stored in spaces other than in the classroom.</td>
<td></td>
</tr>
<tr>
<td>There is no first-aid kit in the classroom.</td>
<td>A first-aid kit is available in the classroom.</td>
<td>A first-aid kit is easily accessible and available in the classroom.</td>
<td></td>
</tr>
<tr>
<td>No evacuation plans are posted.</td>
<td>Evacuation plans are posted.</td>
<td>Clear evacuation plans are visibly posted.</td>
<td></td>
</tr>
</tbody>
</table>
I. LEARNING ENVIRONMENT

I–B. The space is divided into interest areas (for example, building or block area, house area, art area, toy area, book area, sand and water area) that address basic aspects of children’s play and development.

<table>
<thead>
<tr>
<th>Level 1 Indicators</th>
<th>Level 3 Indicators</th>
<th>Level 5 Indicators</th>
<th>Supporting Evidence/Anecdotes</th>
</tr>
</thead>
<tbody>
<tr>
<td>□ The space is not divided into interest areas.</td>
<td>□ Some of the space is divided into interest areas (e.g., block and house).</td>
<td>□ The space is divided into interest areas (block, house, art, books, toys, and so on).</td>
<td></td>
</tr>
<tr>
<td>□ No interest areas are defined or apparent.</td>
<td>□ Some interest areas are clearly defined (e.g., by high and low shelves, large furniture).</td>
<td>□ All of the interest areas are defined and clearly marked (e.g., by low shelves and furniture, carpeting).</td>
<td></td>
</tr>
<tr>
<td>□ Interest areas are not named and/or all areas have abstract names not easily understood by children (e.g., manipulative area, science area).</td>
<td>□ Some interest areas have names that are easily understood by children.</td>
<td>□ All interest areas have names that are easily understood by children (e.g., toy area, house area, book area).</td>
<td></td>
</tr>
<tr>
<td>□ Teachers and children do not refer to interest areas by area names.</td>
<td>□ Teachers and children sometimes refer to interest areas by area names.</td>
<td>□ Teachers and children often refer to interest areas by area names.</td>
<td></td>
</tr>
</tbody>
</table>
## I. LEARNING ENVIRONMENT

### I-C. The location of the interest areas is carefully planned to provide adequate space in each area, easy access between areas, and compatible activities in adjacent areas.

[NOTE: If I-B is rated “1” for “space not divided” or “no interest areas defined,” then I-C must also be rated “1.”]

<table>
<thead>
<tr>
<th>Level 1 Indicators</th>
<th>Level 3 Indicators</th>
<th>Level 5 Indicators</th>
<th>Supporting Evidence/Anecdotes</th>
</tr>
</thead>
<tbody>
<tr>
<td>□ The location of interest areas inhibits the flow of traffic and play.</td>
<td>□ The location of some interest areas allows children to move freely from one area to another.</td>
<td>□ The location of all interest areas allows children to move freely from one area to another.</td>
<td></td>
</tr>
<tr>
<td>□ Tall or large furniture, shelves, or room dividers prevent children and adults from seeing from one interest area to another.</td>
<td>□ Some low furniture, shelves, and room dividers allow children and adults to see into some interest areas.</td>
<td>□ Low furniture, shelves, and room dividers allow children and adults to see from one area to another.</td>
<td></td>
</tr>
<tr>
<td>□ Inadequate space limits the number of children who can play in each interest area.</td>
<td>□ Some interest areas have enough space for many children to play at once.</td>
<td>□ Each interest area has enough space for many children to play at once.</td>
<td></td>
</tr>
<tr>
<td>□ Interest areas with compatible activities are not adjacent (e.g., art area is across the room from a sink or bathroom).</td>
<td>□ Some interest areas with compatible activities are adjacent (e.g., block area is near house area).</td>
<td>□ Interest areas with compatible activities are adjacent (e.g., block area is near house area; art area is near sink or bathroom).</td>
<td></td>
</tr>
</tbody>
</table>
## I. LEARNING ENVIRONMENT

I–D. An outdoor play area (at or near the program site) has adequate space, equipment, and materials to support various types of play.

(Note: Where extreme weather conditions or safety considerations prevent the regular use of outdoor play space, a large and open indoor space, such as a gymnasium, may be used as a substitute.)

<table>
<thead>
<tr>
<th>Level 1 Indicators</th>
<th>Level 3 Indicators</th>
<th>Level 5 Indicators</th>
<th>Supporting Evidence/Anecdotes</th>
</tr>
</thead>
<tbody>
<tr>
<td>There is no outdoor play area.</td>
<td>There is an outdoor play area nearby (e.g., local playground).</td>
<td>The outdoor play area is easily accessible from the indoor space.</td>
<td></td>
</tr>
<tr>
<td>The outdoor play area [or substitute “large and open indoor area”] is never used.</td>
<td>The outdoor play area [or substitute “large and open indoor area”] is sometimes used; the indoor area is sometimes used when the outdoor area could be used.</td>
<td>The outdoor area [or substitute “large and open indoor area”] is always used; the indoor area is never used when the outdoor area could be used.</td>
<td></td>
</tr>
<tr>
<td>The outdoor play area provides limited space, less than 35 square feet per child.</td>
<td>The outdoor play area provides some space, between 36 and 99 square feet per child.</td>
<td>The outdoor play area provides ample space, at least 100 square feet per child.</td>
<td></td>
</tr>
<tr>
<td>There are safety and health hazards in the outdoor play area (e.g., broken equipment, trash, inadequate cushioning surfaces).</td>
<td>There are minor safety and health problems in the outdoor play area (e.g., wobbly bicycles, rusted swings).</td>
<td>The outdoor play area is free of health and safety hazards.</td>
<td></td>
</tr>
<tr>
<td>There are no outdoor play materials or equipment.</td>
<td>The space, equipment, and materials in the outdoor play area allow for some types of outdoor play (e.g., climbing, swinging, running).</td>
<td>The outdoor play area includes both stationary and portable equipment and materials for various types of play (e.g., tricycles, sleds, balls, climbers, stones, boxes, buckets, chalk, scarves, brushes).</td>
<td></td>
</tr>
</tbody>
</table>
# I. LEARNING ENVIRONMENT

I–E. Classroom areas and materials are systematically arranged, labeled, and accessible to children.

<table>
<thead>
<tr>
<th>Level 1 Indicators</th>
<th>Level 3 Indicators</th>
<th>Level 5 Indicators</th>
<th>Supporting Evidence/Anecdotes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Classroom materials are not arranged by any discernible system.</td>
<td>In some of the areas, similar classroom materials are placed together (e.g., blocks and paper grouped by size and/or color).</td>
<td>In all areas, classroom materials are grouped by function or type (e.g., things that fasten—tape, stapler, paper clips; things to build with—unit blocks, Bristle blocks, cardboard blocks).</td>
<td></td>
</tr>
<tr>
<td>Interest areas and materials are not labeled.</td>
<td>Some interest areas and materials are labeled.</td>
<td>All interest areas and materials are labeled.</td>
<td></td>
</tr>
<tr>
<td>There are no labels or labels are of only one type.</td>
<td>Labels are of two types.</td>
<td>Labels are of many types understood by children (e.g., tracings, pictures, photographs, actual objects, words).</td>
<td></td>
</tr>
<tr>
<td>Materials are out of children’s reach or are typically brought out by adults.</td>
<td>Children can reach and get out some (nondangerous) materials without adult help.</td>
<td>Children can reach and get out (nondangerous) materials without adult help.</td>
<td></td>
</tr>
</tbody>
</table>
### I. LEARNING ENVIRONMENT

**I–F. Classroom materials are varied, manipulative, open-ended, and authentic and appeal to multiple senses (sight, hearing, touch, smell, taste).**

<table>
<thead>
<tr>
<th>Level 1 Indicators</th>
<th>Level 3 Indicators</th>
<th>Level 5 Indicators</th>
<th>Supporting Evidence/Anecdotes</th>
</tr>
</thead>
<tbody>
<tr>
<td>□ Most of the materials in most of the interest areas lead to prescribed outcomes (e.g., art cutouts, lotto games, worksheets, coloring books, commercial toys—McDonald’s figures).</td>
<td>□ Some open-ended materials are available in some interest areas (e.g., boxes, paper, beads, paints).</td>
<td>□ Most of the available materials in all interest areas are open-ended (e.g., blocks, books, sand, water, corks, dolls, scarves, toy vehicles, paints, shells).</td>
<td>□ The classroom provides some manipulative materials in some areas.</td>
</tr>
<tr>
<td>□ The classroom does not provide manipulative materials in any of the areas.</td>
<td></td>
<td>□ The classroom provides many manipulative materials in all areas.</td>
<td></td>
</tr>
<tr>
<td>□ Materials include many toy replicas in place of “real” items (i.e., toy plates and cups in place of real dishes; small plastic tools).</td>
<td>□ Materials include some toy replicas in place of “real” items (e.g., toy register, toy broom).</td>
<td>□ Materials include many “real” items in place of toy replicas (e.g., dog dish, firefighter boots, steering wheel, gardening tools, suitcases, briefcases, pots and pans, hammer and saw, telephone).</td>
<td></td>
</tr>
<tr>
<td>□ Many materials do not appeal to all the senses (seeing, hearing, tasting, touching, and smelling).</td>
<td>□ Some materials appeal to multiple senses (e.g., stuffed animals, musical instruments, play dough).</td>
<td>□ Many materials appeal to multiple senses and include both natural and manufactured materials (e.g., materials include items with hard and soft textures; snacks with many smells and tastes; objects made of wood, fabric, metal, paper, liquid).</td>
<td></td>
</tr>
</tbody>
</table>

Circle one indicator level for this item based on the scoring rules on page 4.

1 2 3 4 5

☐ Check here if not observed or reported.
## I. LEARNING ENVIRONMENT

I–H. Materials reflect human diversity and the positive aspects of children’s homes and community cultures.

### Standard Question

1. What cultures and backgrounds (e.g., jobs, interests, hobbies) are represented in the children in your program and the surrounding community?

### Level 1 Indicators

- [ ] Materials do not reflect the home and community cultures or special needs of program children.
- [ ] Materials reflect only one culture.
- [ ] Materials perpetuate cultural and gender stereotypes.

### Level 3 Indicators

- [ ] Materials reflect the home and community cultures and/or special needs of some program children.
- [ ] Some materials reinforce cultural and gender stereotypes.
- [ ] Some multicultural materials are integrated into the classroom.

### Level 5 Indicators

- [ ] Materials reflect the home and community cultures and special needs of program children (e.g., photos of family members, cooking utensils, music tapes, work clothes and tools, eyeglasses).
- [ ] Some multicultural materials are integrated into the classroom.
- [ ] Materials depict a wide range of nonstereotyped role models and cultures (e.g., picture books with women doctors and men doing housework; dress-up clothes for different chores and occupations available to all children; carpentry tools and cooking utensils used by adults and children of both sexes; stories, toys, and computer software depicting minorities as professionals).
- [ ] Multicultural materials are integrated into the classroom (e.g., everyday and holiday clothes from other countries in dress-up area; food from the children’s various cultures and religions served at snack and represented in containers in house area; music, books, and instruments from different times and places; eye-level reproductions of artwork from other countries in different media).

### Supporting Evidence/Anecdotes

- Circle one indicator level for this item based on the scoring rules on page 4.
- Check here if not observed or reported.
### I. LEARNING ENVIRONMENT

I–I. Child-initiated work (work designed and created by children) is on display.

[Note: This item does not refer to designated areas of the room where information is posted for teachers and parents.]

<table>

</thead>
<tbody>
<tr>
<td>□ Children’s work is not displayed.</td>
<td>□ Children’s work is sometimes displayed.</td>
<td>□ A variety of children’s work (e.g., artwork, photos of block structures, samples of emergent writing) is displayed.</td>
<td>□ All displays of children’s work consist of creations stemming from children’s interests and ideas.</td>
</tr>
<tr>
<td>□ Displays of children’s work consist of projects generated from adult ideas or copied from adult products.</td>
<td>□ Some displays of children’s work consist of creations stemming from children’s interests and ideas.</td>
<td></td>
<td>□ Adult-made displays always reflect or depict children’s interests and experiences (e.g., pictures or photos of children’s classroom activities or children’s family members).</td>
</tr>
<tr>
<td>□ Most displays consist of adult-made or commercially produced materials (e.g., calendar, bulletin board, posters of toothbrushing or fire safety).</td>
<td>□ Some adult-made displays reflect or depict children’s interests and experiences.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
DRAW A DIAGRAM OF THE ROOM.
### II. DAILY ROUTINE

II–A. Adults establish a consistent daily routine. Children are aware of the routine.

<table>
<thead>
<tr>
<th>Level 1 Indicators</th>
<th>Level 3 Indicators</th>
<th>Level 5 Indicators</th>
<th>Supporting Evidence/Anecdotes</th>
</tr>
</thead>
<tbody>
<tr>
<td>□ Adults and children do not follow a consistent routine or sequence of events.</td>
<td>□ Adults and children sometimes follow a consistent routine or sequence of events.</td>
<td>□ Adults and children always follow a consistent daily routine or sequence of events. Adults let children know ahead of time about changes in the routine (e.g., field trips, special visitors).</td>
<td>□ Adults and children often refer to names for parts of the day.</td>
</tr>
<tr>
<td>□ Adults and children do not refer to names for parts of the day.</td>
<td>□ Adults and children sometimes refer to names for parts of the day.</td>
<td>□ Adults and children always follow a consistent daily routine or sequence of events. Adults let children know ahead of time about changes in the routine (e.g., field trips, special visitors).</td>
<td>□ Adults and children often refer to names for parts of the day.</td>
</tr>
<tr>
<td>□ Children are not aware of the sequence or nature of activities and depend on adults telling them what to do next.</td>
<td>□ Children are somewhat aware that there is a fairly consistent daily routine (e.g., children know they will go outside at some point during the day and have lunch).</td>
<td>□ Children are fully aware that there is a routine and can anticipate what activities come next (e.g., children name parts of the day, move on their own to the next activity, talk about what activity comes next).</td>
<td>□ Check here if not observed or reported.</td>
</tr>
</tbody>
</table>
II. DAILY ROUTINE

II–B. The parts of the daily routine include time for children to do the following: to plan; to carry out their plans; to recall and discuss their activities; to engage in small-group activities; to engage in large-group activities; to have snacks or meals; to clean up; to transition to other activities; to play outside; and to nap or rest (if applicable—i.e., full-day programs).

Level 1 Indicators
☐ There is no posted daily routine.

Level 3 Indicators
☐ The events listed in the statement above are not regular parts of each day.

Level 5 Indicators
☐ The daily routine is posted so teachers and parents can see it but is out of children’s view (e.g., parents’ bulletin board).

Supporting Evidence/Anecdotes
☐ Some of the events listed in the statement above are regular parts of each day.

☐ All of the events listed in the statement above are regular parts of each day.
II. DAILY ROUTINE
II–C. An appropriate amount of time is allotted for each part of the daily routine.

<table>
<thead>
<tr>
<th>Level 1 Indicators</th>
<th>Level 3 Indicators</th>
<th>Level 5 Indicators</th>
<th>Supporting Evidence/Anecdotes</th>
</tr>
</thead>
</table>
| □ Children have either too little or too much time for most of the parts of the day (e.g., not enough time to carry out child-initiated ideas; too much time to participate in adult-initiated ideas). | □ Children have an appropriate amount of time for some parts of the day. | □ Children have an appropriate amount of time for each part of the day. | |}

□ Children often appear rushed, frustrated, bored, or impatient because of the length of a part of the day.

□ Children sometimes are actively engaged and appear focused as they carry out the activities in some parts of the day.

□ Children are actively engaged and appear focused as they carry out the activities in each part of the day.
II. DAILY ROUTINE
II–D. The program has time each day during which children make plans and indicate their plans to adults.
[Note: If time to plan is set aside but not observed, score at level 1.]

Level 1 Indicators
☐ There is no time set aside for children to make plans or indicate their plans to adults.

☐ Adults plan and direct the day’s activities (e.g., adults tell children where to play, what materials to use, or what activities to complete; adults close certain areas).

☐ Adults do not encourage children to plan or recognize when children are indicating plans in ways consistent with their developmental levels.

☐ Adults assign children areas to play in, and/or materials are chosen and/or set out by the adult.

Level 3 Indicators
☐ Sometimes there is time set aside for children to make plans or indicate their plans to adults.

☐ Adults use rote or routine strategies for planning (e.g., children always verbalize their plans or adults always write down children’s plans).

☐ Adults sometimes encourage children to plan in ways that are consistent with their developmental levels.

☐ Some areas and some materials are available to some children for making their plans (e.g., a specific number of children are allowed in each area, “The block area is closed today,” only play dough is available in the art area).

Level 5 Indicators
☐ There is a daily time set aside for children to make plans or indicate their plans to adults.

☐ Adults use a range of strategies to support children’s planning (e.g., props, area signs, tape recorder, singing; planning individually, in pairs, in small groups).

☐ Adults encourage children to plan in ways that are consistent with their developmental levels (e.g., by pointing, bringing objects to the planning table, moving toward the chosen area, acting out what they want to do, making drawings, making verbal plans, making written plans).

☐ All areas and materials are available to children for making their plans.

Supporting Evidence/Anecdotes

Circle one indicator level for this item based on the scoring rules on page 4.

### II. DAILY ROUTINE

**II–E. The program has time each day (e.g., work time, choice time, center time, free play) during which children initiate activities and carry out their intentions.**  
*[Note: If time for child initiation and choice is set aside but not observed, score at level 1.]*

<table>
<thead>
<tr>
<th>Level 1 Indicators</th>
<th>Level 3 Indicators</th>
<th>Level 5 Indicators</th>
<th>Supporting Evidence/Anecdotes</th>
</tr>
</thead>
<tbody>
<tr>
<td>- There is no daily time set aside when children can initiate activities and carry out their intentions.</td>
<td>- There is a daily choice time during which children can sometimes initiate activities and carry out their own intentions (e.g., only four children allowed in the block area, some areas have preset activities).</td>
<td>- There is a daily choice time in which children always initiate activities and carry out their intentions.</td>
<td></td>
</tr>
<tr>
<td>- During choice time, children do preset activities (e.g., the adult sets out materials in each area for the children to play with such as blocks, Legos, crayons and worksheet, puzzles, and books).</td>
<td>- During choice time, children sometimes do preset activities (e.g., children participate in an art activity set up in the art area or leave an activity to brush their teeth).</td>
<td>- Throughout choice time, children carry out their own initiatives and activities (i.e., children choose areas, people, and materials; children are free to invent activities and use materials creatively; children are free to change activities).</td>
<td></td>
</tr>
<tr>
<td>- Adults direct how children use materials and/or carry out activities (e.g., all children are expected to make a paper flower with precut pieces, all children are expected to respond to adults with the same words and actions).</td>
<td>- Children make some choices about where and how to use materials and/or carry out activities (e.g., children can decide what to do with the construction paper that the adult has set out for an art activity).</td>
<td>- Throughout choice time, children make many choices about where and how to use materials and carry out activities (e.g., children can choose from a variety of art materials on the shelves to support their activities; children are free to bring materials from one area to another).</td>
<td></td>

<td>Children sometimes call adults by name.</td>
<td>Children call adults by name (e.g., “Look here, Miss Jane”; “Mrs. Smith, you be the baby now”; “Carlos, it’s your turn.”)</td>
<td></td>
</tr>
</tbody>
</table>
### III. ADULT-CHILD INTERACTION

#### III–D. Adults use a variety of strategies to encourage and support child language and communication.

<table>
<thead>
<tr>
<th>Level 1 Indicators</th>
<th>Level 3 Indicators</th>
<th>Level 5 Indicators</th>
<th>Supporting Evidence/Anecdotes</th>
</tr>
</thead>
<tbody>
<tr>
<td>□ Adults control or disrupt conversations with children (e.g., lecture or quiz children, interrupt, talk over, dominate, redirect topic).</td>
<td>□ Adults sometimes share control of conversations with children.</td>
<td>□ Adults share control of conversations with children (e.g., let children initiate conversations, take turns, wait patiently for children to form thoughts without interrupting).</td>
<td>-</td>
</tr>
<tr>
<td>□ Adults do not observe and listen to children; children are told to be quiet so they can listen to adults or follow directions.</td>
<td>□ Adults sometimes observe and listen to children.</td>
<td>□ Adults observe and listen to children throughout the day (e.g., wait for child to speak first, remain quiet until child indicates he or she is done talking).</td>
<td>-</td>
</tr>
<tr>
<td>□ Adults ignore children when they talk; adults give directives.</td>
<td>□ Adults sometimes converse with children in a give-and-take manner.</td>
<td>□ Adults converse with children in a give-and-take manner. They make comments, observations, acknowledgments, and seek children’s ideas.</td>
<td>-</td>
</tr>
<tr>
<td>□ Adults ask children many questions, especially closed-ended or leading questions with predetermined correct answers (e.g., “What color is this circle?”).</td>
<td>□ Adults ask a moderate number of questions; questions are both closed-ended and open-ended.</td>
<td>□ Adults ask children questions sparingly; questions are open-ended (i.e., to discover child’s ideas and thought processes); questions relate directly to what the child is doing.</td>
<td>-</td>
</tr>
</tbody>
</table>
III. ADULT-CHILD INTERACTION

III–E. Adults use a variety of strategies to support classroom communication with children whose primary language is not English.

Level 1 Indicators
- Adults do not support communication with children whose primary language is not English.
- Adults do not encourage communication between English- and non–English-speaking children.

Level 3 Indicators
- Adults use some strategies to support communication with children whose primary language is not English.
- Adults sometimes encourage communication between English- and non–English-speaking children.

Level 5 Indicators
- Adults use many strategies to support communication with children whose primary language is not English (e.g., use gestures to convey ideas, use photos or other symbols to represent actions and objects, describe materials and activities in both languages, repeat children’s non-English words in English).
- Adults encourage communication between English and non–English-speaking children (e.g., translate, use words and phrases in both languages, encourage children to label and describe things for one another).

Supporting Evidence/Anecdotes

Circle one indicator level for this item based on the scoring rules on page 4.

<td>Adults sometimes support children when they choose to repeat an activity.</td>
<td>Adults support children when they choose to repeat an activity (e.g., not redirecting the child to try something else).</td>
<td>Adults sometimes support children when they choose to repeat an activity.</td>
</tr>
</tbody>
</table>
III. ADULT-CHILD INTERACTION

III–J. Adults acknowledge individual children’s accomplishments.

Level 1 Indicators

☐ Adults praise children’s accomplishments (e.g., “Everybody did a great job cleaning up!” “I like the way you’re sitting quietly”).

☐ Adults give children tokens, stickers, and other rewards for their accomplishments.

☐ Adults do not use encouragement to acknowledge children’s efforts and ideas.

Level 3 Indicators

☐ Adults sometimes praise children’s accomplishments.

☐ Adults sometimes give tokens, stickers, or other rewards for children’s accomplishments.

☐ Adults sometimes use encouragement to acknowledge children’s efforts and ideas.

Level 5 Indicators

☐ Adults do not use praise.

☐ Adults do not give rewards for children’s accomplishments.

☐ Adults use encouragement to acknowledge individual children’s efforts and ideas (e.g., repeating children’s ideas, commenting on what children are doing, putting children in control of evaluating their own work and efforts).

Supporting Evidence/Anecdotes
### III. ADULT-CHILD INTERACTION

#### III–K. Adults encourage children to interact with and turn to one another for assistance throughout the day.

<table>
<thead>
<tr>
<th>Level 1 Indicators</th>

<th>Supporting Evidence/Anecdotes</th>
</tr>
</thead>
</table>
| Adults shame, scold, and/or punish children in conflict. | Adults provide children in conflict with statements about manners or morals. | Adults treat conflict situations with children matter of factly. | Adults defuse the conflict situation before moving into problem-solving:  
  • Approach children calmly and stop any hurtful actions.  
  • Acknowledge children’s feelings. |
| Adults do not defuse the conflict situation. | Adults partially defuse the conflict situation. | Adults partially defuse the conflict situation. | Adults involve children in identifying the problem:  
  • Gather information from the children (what happened, what upset the children).  
  • Restate the problem. |
| Adults decide what the problem is without input from children or don’t state the problem at all. | Adults state the problem with some confirmation from the children (e.g., “Did you take that from her?”). | Adults state the problem with some confirmation from the children (e.g., “Did you take that from her?”). | Adults involve children in the process of finding and choosing a solution for a problem:  
  • Ask children for solutions and encourage them to choose one together.  
  • Be prepared to give follow-up support when children act on their decisions. |
| Adults solve problems for children without explanation. | Adults sometimes impose their own ideas about how conflicts should be resolved and choose a solution. | Adults sometimes impose their own ideas about how conflicts should be resolved and choose a solution. | |
IV. CURRICULUM PLANNING AND ASSESSMENT

IV–A. Staff use a comprehensive and documented curriculum model or educational approach to guide teaching practices.

Standard Questions
1. Do you use one or more curriculum model(s)? (If yes) Which one(s)?
2. Is the curriculum written or documented in some way? (If yes) What part(s) of the curriculum are documented?

Level 1 Indicators
- Staff do not use an identifiable educational model or approach.
- The components of the approach are not documented.
- Teaching is not based on theory, research, or proven practices.
- There is no written curriculum statement providing a rationale for program practices and child development goals.

Level 3 Indicators
- Staff sometimes use one or more identifiable educational models or approaches.
- Some components of the approach are documented.
- Some components of the approach are based on theory, research, and proven practices.

Level 5 Indicators
- Staff consistently use one comprehensive educational model or approach.
- The components of the approach are documented.
- The approach is based on theory, research, and proven practices.
- A written curriculum statement provides a rationale for program practices and child development goals.

Supporting Evidence/Anecdotes

Circle one indicator level for this item based on the scoring rules on page 4.
IV. CURRICULUM PLANNING AND ASSESSMENT

IV-B. Staff use a team teaching model and share responsibilities for planning and implementing program activities.

Standard Questions
1. Do staff have a regularly scheduled time for planning? (If yes):
   a. When do they meet?
   b. How often do they meet?
2. Who is responsible for planning activities?

<table>
<thead>
<tr>

<th>Supporting Evidence/Anecdotes</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐ Staff do not have regularly scheduled planning sessions.</td>
<td>☐ Staff meet once or twice a week to plan.</td>
<td>☐ Staff meet daily to discuss and make plans for the next day.</td>
<td></td>
</tr>
<tr>
<td>☐ The head/lead teacher plans all activities.</td>
<td>☐ The head/lead teacher sometimes plans activities with other members of the teaching team.</td>
<td>☐ Teaching team members participate equally in planning activities.</td>
<td></td>
</tr>
<tr>
<td>☐ Assistants and aides play minor nonteaching roles (e.g., wipe tables, prepare materials).</td>
<td>☐ Assistants and aides sometimes conduct and/or participate in children’s activities.</td>
<td>☐ Teaching team members conduct and participate in children’s activities.</td>
<td></td>
</tr>
</tbody>
</table>
IV. CURRICULUM PLANNING AND ASSESSMENT

IV–C. Staff maintain records on children and families including the following data on each child:

- Name, birthdate, name of parent or guardian, home address, and phone number
- Child immunization records, health and disability status, accident reports
- Assessment of child’s progress
- Home visit documentation, parent/teacher conference documentation
- Family goals, treatment referrals, and follow-up

Standard Questions
1. Do staff keep records on children and families in the program? (If yes):
   a. What information is in the records?
   b. Where are the records kept?
   c. Who has access to the records?

Level 1 Indicators
- Staff do not maintain systematic records on children and families in the program.
- Records are not easily accessible to authorized staff (e.g., records are stored in director’s office, locked in another building).

Level 3 Indicators
- Staff maintain some systematic records on children and families in the program.
- Some records are easily accessible to authorized staff.

Level 5 Indicators
- Staff maintain systematic and complete records on children and families in the program.
- Records are easily accessible to authorized staff (e.g., emergency cards, accident reports, and parent/teacher conference notes are kept in the classroom; teacher and parent coordinator have copies of family goals).

### IV. CURRICULUM PLANNING AND ASSESSMENT

**IV–D. Staff record and discuss anecdotal notes as the basis for planning for individual children.**

**Standard Questions**
1. Do you keep anecdotal notes on children’s behavior? (If yes):
   a. How do you record the notes?
   b. What information do you include in the notes?
   c. Do you use the notes to plan for children? (If yes) How?
   d. Do you share the notes with parents? (If yes) How?

IV. CURRICULUM PLANNING AND ASSESSMENT

IV-E. Staff regularly use a child observation measure of proven reliability and validity to assess children’s developmental progress.

Standard Questions
1. Do you use a child observation measure? (If yes):
   a. What is the name of the measure?
   b. How often do you complete the measure?

<table>

<tbody>
<tr>
<td>□ Staff do not use a child observation measure.</td>
<td>□ Staff use a child observation measure that is of unknown reliability and validity.</td>
<td>□ Staff use a child observation measure twice a year or more often to assess children’s developmental progress.</td>
<td>□ Staff use a child observation measure that is of proven reliability and validity (e.g., the High/Scope Child Observation Record, Work Sampling).</td>
</tr>
</tbody>
</table>

Supporting Evidence/Anecdotes
## I. LEARNING ENVIRONMENT
- A. Safe and healthy environment
- B. Defined interest areas
- C. Logically located interest areas
- D. Outdoor space, equipment, materials
- E. Organization and labeling of materials
- F. Varied and open-ended materials
- G. Plentiful materials
- H. Diversity-related materials
- I. Displays of child-initiated work

## II. DAILY ROUTINE
- A. Consistent daily routine
- B. Parts of the day
- C. Appropriate time for each part of day
- D. Time for child planning
- E. Time for child-initiated activities
- F. Time for child recall
- G. Small-group time
- H. Large-group time
- I. Choices during transition times
- J. Cleanup time with reasonable choices
- K. Snack or meal time
- L. Outside time

## III. ADULT-CHILD INTERACTION
- A. Meeting basic physical needs
- B. Handling separation from home
- C. Warm and caring atmosphere
- D. Support for child communication
- E. Support for non-English speakers
- F. Adults as partners in play
- G. Encouragement of child initiatives
- H. Support for child learning at group times
- I. Opportunities for child exploration
- J. Acknowledgment of child efforts
- K. Encouragement for peer interaction
- L. Independent problem solving
- M. Conflict resolution

## IV. CURRICULUM PLANNING AND ASSESSMENT
- A. Curriculum model
- B. Team teaching
- C. Comprehensive child records
- D. Anecdotal note taking by staff
- E. Use of child observation measure

(Total score ÷ Number of items rated)
The Preschool Program Quality Assessment (PQA), Second Edition, is a rating instrument designed to evaluate the quality of early childhood programs and identify staff training needs. This new edition offers a completely revised format and scoring system for ease of use and greater accuracy. Developed by HighScope Educational Research Foundation, the Preschool PQA is appropriate for use in all center-based early childhood settings, including but not limited to those using the HighScope educational approach. The Preschool PQA is an all-in-one program evaluation system with the following features:

- Assesses key aspects of program quality, including adult-child interaction, learning environment, daily routine, curriculum planning and assessment, parent involvement and family services, staff qualifications and development, and program management.
- Includes both classroom- and agency-level items for comprehensive evaluation.
- May be administered by trained independent raters or as a self-assessment by program staff.
- Provides specific, easily understood quality indicators with objective 5-point rating scales that define quality along a continuum.
- Reflects research-based and field-tested “best practices” in early childhood education and care.
- Can be aligned with the Head Start Program Performance Standards (see the Preschool PQA Administration Manual).
- Provides reliable, scientifically validated assessment proven in a wide range of early childhood programs and settings.
- Can be used as a basis for program accreditation, reporting, monitoring, and training.
